

# STANLEY®

## Radiation / Refrigeration Door Operator

**Heavy Weight**

*Stanley offers special operator packages capable of opening doors weighing up to 5000 pounds. The packages include the operator and all the hardware and controls needed to automate these doors. The spring-open, power-close mechanisms will open the doors 45 or 90 degrees with activation from a designated push plate.*

Stanley Access Technologies designs, manufactures and markets automatic door systems worldwide.

For more than 65 years, we have set the global standard for smooth, quiet operation, user safety, design flexibility, quality, reliability and ease of installation. Our service force is North America's largest and most comprehensive network devoted to the installation and maintenance of automatic door systems. This network combines the global resources of Stanley with the unmatched customer responsiveness of local organizations to ensure every door we sell and install provides our customers with worry-free operation.
